Summary

Native Forest Nursery (NFN) is seeking qualified applicants for an Operations Manager. This is a key position within the organization with significant upward mobility potential for the right person. This position is responsible for all aspects of the nursery operation including production, P&L, safety, sales and personnel management. This position is ideal for someone with an entrepreneurial spirit looking to step into a leadership role in an established business that has and continues to experience rapid growth.

About Native Forest Nursery

Native Forest Nursery is a wholesale grower of native trees and shrubs. We grow approximately 7 million bare root seedings annually and produce over 150,000 container plants annually in #1, #3, #5 and #7 sized air pruning containers. In addition, we produce around 30,000 field grown liners annually. Species diversity is key to our success and we grow well over 100 different species of trees and shrubs across our product lines. Our products serve the horticulture, reforestation, mitigation and reclamation industries among others.
